Wet-weekend. St. Andrews wins Lipton

The St. Andrews Bay Yacht Club from Panama City, Fla., walked off with the Sir Thomas Lipton Trophy which was fought for at Bay-Waveland Yachr Club over Labor Day weekand. Although the Floridians did not place first in any of the four individual races during the three-day period, they turned in a consistent performance which gave them a comfortable winning margin of 71/2 points over second-place Pass Christian when the final gun sounded on Monday.

Clermont classes ceased by board

Discontinuance of classes at the old ClermontHarbor School this week was voted by Hancock School Board Tuesday. An even dozen mothers of affected school children came to the school board meeting and asked for this action.

Mrs. Jerry Carco, spokes man for the delegation, told the board they preferred classes for their children to be held in the gym at Gulfview School in Lakeshore or even in the hallways there. Their objection to Clermont Harbor school being used for overflow from Gulfview stemmed from the six school bus trips the children had to make if the Clemont

These buses are overloaded, the transportation supervisor said, even though a few... pupilly from the area they serve were cominggio school in private ransportation. Necaise also said he had no spare bus presently available and Superintendent of Education Robert F. Remuneration from the federal government for its acquisition of school property for NASA-MTO occupied the bulk of the "meeting. Supervisors finally tabled action until Monday at the earliest on recommendation from U.S. District Judge Harold Cox that a \$127,000 jury judgment for 320. acres of 16th Section in the MTO fee area and similar sized easement in the buffer some be scaled down to a figure of about

\$80,000 including interest. Walter J. Phillips, attorney retained by the county and school board to handle this litigation, told the supervisors he reluctantly recommended going along with the judge's remittitur after arguments on a new trial last month in Jackson, outlining his reasoning in candid terms. Judge Cox had written the jury's findings in the condemnation case were 'excessive by any standards of reason.

Cost of replacing the 16th Section tract taken in fee was the big concern of the supervisors. H.G. Dean of Beat 1 moved to accept the settlement, Charles Lavinehouse seconded but Dolph Keliar of Beat 2 said he would have to vote no because he could not see replacing the acreage at the price allowed. Dean withdrew his motion after Phillips suggested seeking a ruling on replacement from the state sttorney-general stoffice. Phillips also reported that after a

As we sat wondering just what else unp in what has seen toputit mildly, a sert of rough couple of meaks, it did! The one really bright spot in otherwise more or less dis nal formight newswise, was to us, publication of Emily de Monthizin's well done letter in Time Magazine, Hur mention of Mayor John Scalide and Chief Lethen Garriga's participation was in our opinion, just the right wach of humanitarismism (and if there is no such word, we just created it): and proved that all Mississippi officials aren't beasts as they have been portrayed so frequently in Northern papers, national magazines and on tv. However, there's always someone who disagrees and on Saturday both the Mayor and Chief received a letter from a gentleman, and we use the word loosely, signing his name George K. Elphinstone, identifying himself among other things as a dyed in the wool Rebel, it was a typical crank letter, and Elphiustone which probably isn't his real name mailed the missive from San Francisco. We wouldn't bother to reprint the kink he wrote but only want to get over the message that it was insulting, and even vulgar in part, to point out the fact that while the majority praised the community for honoring an internationally famous artist, there's an educated man judging by his spelling and use of words so bigoted, petty and ignorant that it's no wonder things are so much in a messi Now, as they say on tv, let's see what's happening on the local scenel

Lipton occupied the weekend

As Linton Cun races at Bay-Waveland Yacht Chib was without a doubt the largest single event of the hig weekend, we'll begin there, leaving technical details of this event to our sports reporter Hank Evans with the sincere hope he's a bit more informed on the fine points of this type of contest than are we. To be perfectly honest, in our native habitat, the hills of Middle Tempessee, one rode horses or else as there wasn't enough water in one place to learn to do more than row a cance. . bring on a steeplechase and we'll be with you, but we can hardly spell spinnaker and don't know what one does when 'tacking'... BUT we can report in all honesty that there wasn't a dull or dry moment inside or outside the Yacht Club all weekend, Thirteen sailfish class boats took off in just a lively breeze as the starting gum sounded. . Harry Chapman, Bill Reeves, Bobby Boh and Chuck Breath carried the local club's hopes as defending champs borne on a fairly brisk breeze under almost cloudless skies for a little while. . . . then the fun began, . . ominious leaden thunderheads appeared, made more threatening by salfron, storm hued lighting and for a while all h---broke loose . . . by some miracle, or possibly seasoned skippering, only one crew went into the drink. . (Pensacola) and two New Orleans crews were disqualified on fouls, but just how one fouls while sailboat racing, we haven't the faintest idea--anyway 10 made it in, wet, battered and happy. As it is more in our line to drop names, we'll do just that, . . a few seen rooting for the home team. . .(we met some out-of staters, but didn't make notes as they won't read this anyway) included Virginia Wagner, Rita Wolfe, very piratish in her eye patch -(she has a nerve pressing on her eye or something), . .twin, Margaret Hadden, appearing tanned and looking lovely; the Bill Watts, Dr. Leroy McFarland in one of the new fall green-gold shirts, lda and Harry Blanke, Liz Whitfield, Eve McDonald, Winnie McDonald, Iva May McDonald (guess the men were around, but we only name those we see-Betty and Gerald Kennedy, Jean Reeves and loads of others, but all of a sudden can't recall who else.

Repairs to the giant acoustical horn, which got a few more dents when it fell while being lowered to the ground for work last week, are to be completed Oct. 1. MTO sources said. It has been determined the work can be done by bringing welders to the site or taking parts to welders so the whole 2,200 pound horn doesn't have to be shipped off.

Rescured from the water were Sheila Lipps, 5, and Pete Lipps, 8, who were with their father and uncle, Ashton J. Grayson of New Orleans, who stopped the car to go fishing.

A Harriesburg funeral home operator, Al Hulett, suffered severe burns of the forearms and hands about 8:30 p.m. Friday when his brand new boat exploded in a canal in Jordan River Isles, Chief Deputy Eido Depreo reported. The man told him he had been charging the battery when the blast occurred and he jumped overboard. There was a second explosion when the officers arrived.

Mississippi's Greatest Asset

Under the direction of Mississippi State University, the Gulf Coast Technical Institute of Gulfport will soon be in operation at the Naval Base. Students advanced beyond junior college level are being registered and faculty members, qualified to teach radar, electronics and electric engineering, are being assembled.

Unprecedented industrial development in this area, along with the NASA project in Hancock County, have created a demand for trained technicians, so this crash program has been provided by an Act of the State Legislature in cooperation with the Federal Government.

The new Harrison County Junior College is being built midway between Gulfport and Biloxi, and plans are under way to improve and expand existing educational facilities in this area. The Keesler Air Force Base, with its thousands of young men graduating annually into the nation's service, is Mississippi's foremost technical institution.

Former U. S. Senator Joh Sharp Williams, statement planter and scholar, once said that Mississippi and girls were her single greatest asset. How st cant is this statement in our time, with the inco demand for men and women trained in the skills a day comes in the Magnolia State for all calling qualified scientific technicians are needed in the of electrical, chemical and mechanical engineers
